Dear Parent/Carer

Re: Year 11 Maths Intervention Sessions

I hope this letter finds you well. As you are aware, your child is at a pivotal stage of their school life, with their mock and final examinations approaching. I am writing to inform you of extra after school intervention in English that is available, **week commencing 21st September.**

Your child has been identified as someone who would benefit from additional intervention in Maths to ensure that they achieve their potential in the GCSE examinations this year.

We would like to invite your child to after school intervention. This takes place on **Wednesdays 3pm to 4pm on the A0 corridor.** This half term in after school intervention, we are focusing on **Mathematics exam technique – Number and Algebra**

Intervention takes place every week this half term and your child's attendance at this could boost their grade. Students will be supported by the Maths team, some of whom are examiners, to work on key areas of revision and practise. This will help prepare them for their mock exams but also their independent revision prior to the real exam in May/June.

Each intervention session focuses on a specific aspect of a specific paper, allowing for students to really focus their revision and maximise their chances of achieving the best grades possible.

We cannot overstate the importance of regular attendance at these interventions. Students who engage consistently give themselves the very best chance of achieving their target grades in the summer examinations.

We therefore ask for your support in encouraging your child to attend Maths interventions every Wednesday. By working together, we can help your child make the most of the support on offer and enable them to approach their exams with confidence.

Thank you in advance for your continuous support.

Yours faithfully

Mr E Wade
